A report on “Step Up at Deloitte Program” conducted on 16th Mar,2018 (Conducted in collaboration with TASK)

A 1-day program on “Step Up at Deloitte” was organised by the Department of Computer Science & Engineering on 16th Mar,2018 for the students of BE- 3rd, in association with TASK.

The objective of the program was to

- 1) Session on Professional Hiring
- 2) Job Markets and trends in India
- 3) Communication Excellence

The morning session was started at 9:30A.M with the interaction of students by an activity of knowing each other under the supervision of **Mr.Ranjith** and **Ms.Aparna** from Deloitte. Next session on professional hiring was held by **Mr.Vinay Haria**, Senior Managing Consulting for Deloitte. He shared some important points on what an employee should have while doing a job like attitude, discipline and passion to learn which he gained through his personal job experience in life. His personal experience on how to perform as an employee motivated many number of students. The session was concluded with a tea break. The next session was held on **Emerging Technologies** in the current world by **Ms.Priyanka** and **Mr.Sachin**. The technologies included were Robotic Automation Process, 3D-Printing, Artificial Intelligence, Hardware Robotics, Internet of things(IoT), Cloud computing & Quantum computing. A brief description about each and every technology was given by the consultants on how they are being used and also what are the other technologies being developed for the future use. This session was concluded at 1:00 PM.

The final session was started after the lunch with the delegates at 1:30 PM on **Communication Excellence**. This session was held by **Mr.Ranjith**. This included the topics Email Etiquettes, Resume writing and communication to impact. A brief description about each topic was given and with a task for each student.

After that a mock interview was held among few students with the consultants as Interviewee. At the end a video was shown of how the **Deloitte** company, founded by **William Welch Deloitte**, progressed through many years since 1854.

FEEDBACK

We had the most amazing visit which gave us real technical insight. We learned so much about the functioning knowledge where we visited and the procedure to become a good employee. This visit gave us exposure about opportunities in Software industry and how exactly these industries work. It also inspired the students and be updated about the new technologies which will help them in preparing for starting their own careers.

These types of visits should be carried out for the students regularly so that the students get exact exposure about the working and requirements of the industries which is expected at the time of placements.
