A Report on 12-Day training program on “CCNA R & S Instructor Training” conducted during 12th to 24th March, 2018

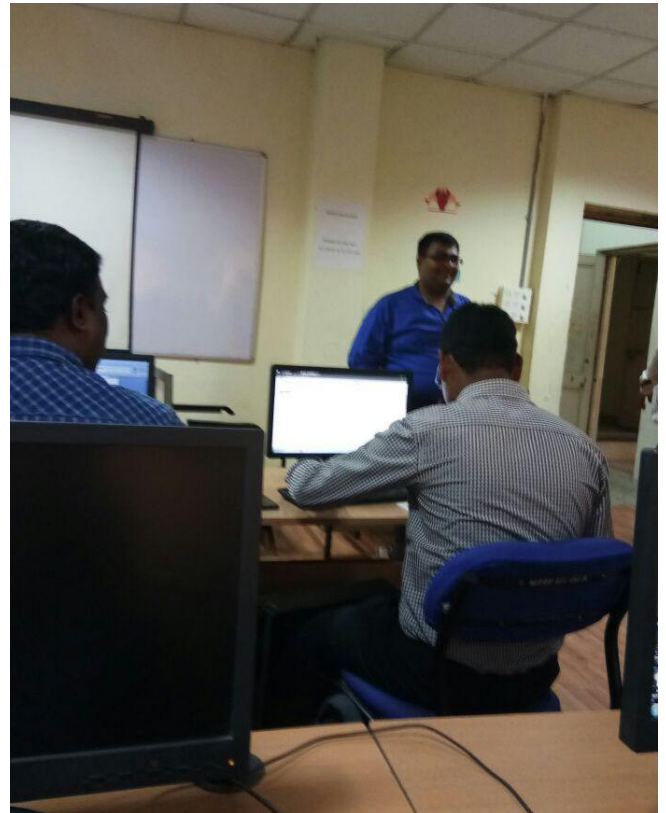

(Conducted in collaboration with TASK)

A 12-day workshop on “CCNA R & S Instructor Training” was organized by the Department of Computer Science & Engineering, in association with CISCO ACADEMY SUPPORT CENTER and TASK during 12th-24th March, 2018. In This workshop the faculties from various engineering colleges are participated.

All the participants took active participation in the workshop. The workshop was conducted by **Mr. Shubhajit Jagadev**, Head, Cisco Academy Support Center (East, Northeast and Southeast India) & Cisco Certified Instructor Trainer (India).

CCNA R&S module 1 and 2 provides an overview of general networking theory and opportunities for practical experience, career exploration and soft skill development.

Upon the completion of this course Students gain ICT knowledge and practical experience.

Benefits of this course:

1. Offer a high quality curriculum that combines in-depth technical training and professional skills development.
2. To prepare the students for a professional certification, recognized by employers worldwide and help to fill an estimated eight million networking jobs around the world.
3. To track student success and connect with educators and IT experts.
4. Students Receive discounts on Cisco equipment for classroom and certification exams for students.
5. To Connect to a global community of employers and alumni to find a job.
